New Laptop Specification
2022-2023

Dear Parents,

When purchasing a new laptop for your Child from Grade 1 to Grade 12, please make sure that the laptop meets at least the following requirements:

Processor (CPU):
Core i3 or more for 14" laptops and above (Grades 6-12)
Or
Atom, Celeron… for mini laptops (10"-14") (Grades 1-5).
Grades 1-5 (for a Mini Laptop)
Processor: Intel Celeron Dual Core or Octa Core or Intel Pentium Quad-Core
Screen Size: between 10 to 14" screen

Memory (RAM): 2 GB Ram or more.
Screen Size: Size can range from 10" till 17" depending on your child's needs (Grade 1-5 students can buy mini laptop or 10" laptop).
HDD: 250 GB or more.
Operating System (OS): Windows 10 or Higher.

Please make sure that your child's laptop has Arabic letters (along with English) on the keyboard keys & headphones or earphones.

We prefer that new laptops include an Antivirus (ex: AVG Free) & Microsoft Office 2016/2019.

All E-Books and educational software needed in the classroom will be installed during the first couple weeks of school.

If your child already has a MAC PC, he/she will need to install either Open Office or MS Office at home. We will install all E-books at school.

Please make sure your child's laptop is formatted before returning to school for the academic year 2022-2023. Formatting the system removes all the files, errors and restores the computer. Consequently, the IT department will re-install all the required e-books and software programs.

Thank you.
